

# A Note to Parents

This Wordbook contains all the sight words we will be studying throughout the year plus some additional enrichment words. Your child should spend some time each week studying this Wordbook with an adult. The amount of time will vary according to the ability level of the individual child.

The sight words are each followed by a sentence using the word. The sentence is to help your child figure out the word through the context of the sentence. The list we are currently studying will be marked with a paper clip. Here are some tips for studying the words

1. As you study the list, vary the order of the words.
2. If the child has difficulty reading the word, the adult can read the sentence saying "blank" in place of the underlined word. The child should be able to identify the key word through context and by seeing the beginning and ending letters of the word.
3. The student is not responsible for reading each sentence. I do, however, encourage those students who are able readers to read the sentence to help figure out the word or to read the sentence simply to practice reading.
4. This wordbook is a great tool to print and leave in your vehicle. SO on those long trips, or even short trips, someone in the car can help your child study without having to miss out on any of their play time. ©

This Wordbook is meant to aid your child. It is used in conjunction with our reading and writing experiences. Studying this Wordbook should not be a cause of anxiety or stress for you or your child. It is only meant to provide resources for parents to reinforce reading at home.
